

Power Quality – Power Management – Power Quality Solutions

Having any of these problems:

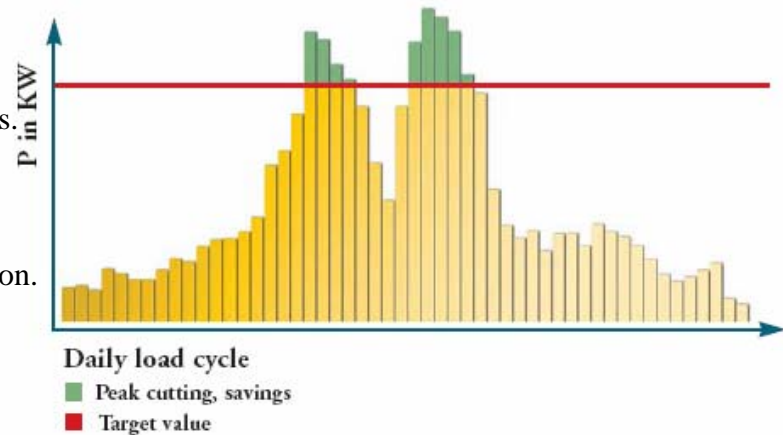

- Paying Peak Demand Penalties?
- Paying Power Factor Penalties?
- Power Cables overheating problems?
- Fuses Burn out, Circuit Breakers Tripping with no obvious reason?
- Early break down of equipment and machines?
- Unbalanced load grid that reduces life expectancy of equipment?
- Equipment maintenance cost high?

Want to solve to these problems and:

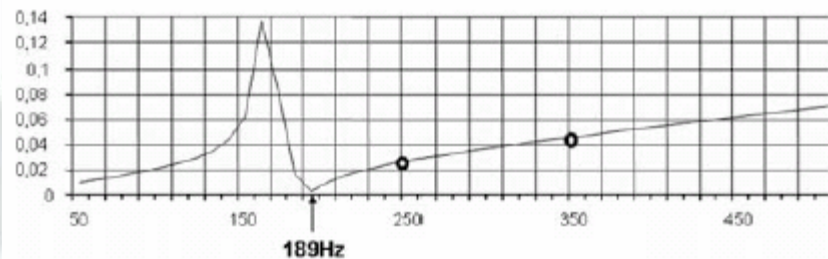

- Reduce the electricity bill by reduction of KWh loses.
- Elimination of Power Factor penalties.
- Elimination of Resonance Effect.
- Reduction of maintenance cost's.
- Reduction of Investment by high equipment utilization.

We at TECO GROUP – Jundi Electrical Industry have the proven complete solutions.

- Peak Demand Solutions.
- Active Harmonic Solutions up to 97% Harmonic Reduction of the System.
- Real Time Monitoring & Control of Power Elements up to 255 Devices Over the Internet.

System busbar: impedance vs. frequency
